

Product Development with *Agentic AI*

Empowering the Next Generation of AI-Powered Builders

Where ambitious minds become architects of tomorrow. Not just a coding course — a complete product-building experience that integrates AI at every stage of the development lifecycle. You leave with a deployed product, a portfolio, and a network that compounds for life.

10k+ Global Learners	50+ Learning Modules	4 Months Total	8+ Real Projects
-------------------------	-------------------------	-------------------	---------------------

WHO IS THIS COURSE FOR?

Beginners NO EXPERIENCE No prior coding or AI experience required. Start from absolute zero and build up to shipping real products.	Professionals DEVELOPERS & PMs Developers, product managers, and designers who want to supercharge skills with Agentic AI.	Founders BUILD & SHIP FAST Entrepreneurs & career switchers who want to ship AI-powered products and break into the industry.
--	---	--

CORE FOCUS AREAS

- Full-stack product development using modern web & mobile technologies.
- Mastery of AI dev tools — GitHub Copilot, Cursor IDE, Claude Code — used in every build.
- Building enterprise-grade AI systems: chatbots, agents, RAG pipelines.
- Cloud deployment, security, monitoring, and production-readiness.
- Career acceleration: LinkedIn optimization, resume building, AI-powered job hunting.

Month-by-Month Curriculum

A structured 4-phase journey — from zero to a live, deployed AI product

LIVE • LMS • MENTORED

MONTH 01	Frontend Development & AI Coding HTML, CSS, JavaScript, React.js Live Builds: Responsive portfolio, interactive JS apps, multi-page landing pages, React intro. LMS: HTML/CSS fundamentals, ES6+, Git/GitHub, AI Dev Tools setup (Copilot, Cursor).
MONTH 02	Full-Stack Development with AI Node.js, Express, MongoDB, SQL, Deployment Live Builds: Full-stack task manager, auth flows, LLM API integration, end-to-end deployment. LMS: Advanced React, REST APIs, MongoDB & SQL, CRUD, JWT security, Vercel/Render.
MONTH 03	Domain Tracks & Career Readiness Design, Voice AI, Data Analytics, Industry AI Live Tracks: UI/UX with Figma AI / VO.dev - Voice Agents (Whisper, ElevenLabs) - LinkedIn & Interview Prep. LMS Electives: Business, Tech, Finance, Marketing, Healthcare, Legal, Data Analytics (Python/Power BI).
MONTH 04	Guided AI Product Internship Plan - Build - Deploy - Present Structure: 4-week self-directed build with weekly 1-hr mentor check-ins every Saturday. Deliverable: Fully deployed AI product + GitHub repo + 5-min live demo. Dual certificate issued.

Tech Stack & Delivery Model

Every tool taught in context — through real product builds, not isolated exercises.

TECHNOLOGY STACK

Frontend & Backend HTML5 • CSS3 • JavaScript ES6+ • React.js • Node.js Express.js • JWT Auth	Databases & Deployment MongoDB • PostgreSQL • MySQL • Vercel • Netlify Render • Supabase
AI Dev Tools GitHub Copilot • Cursor IDE • Claude Code • LangChain OpenAI API • LangGraph	Domain Tools Figma AI • VO.dev • Whisper • ElevenLabs Python/Pandas • Power BI

WEEKLY LEARNING RHYTHM — 11-14 HRS / WEEK

DAYS	FORMAT	ACTIVITIES	TIME
Sat & Sun	LIVE	Instructor-led coding, guided builds, hackathon sprints, guest speakers.	6 hrs
Mon – Wed	LMS	HD video lessons, concept check quizzes, coding labs, community challenges.	3–4 hrs
Thu – Fri	Practice	Peer code reviews, mentor office hours, deep-dive assignments, weekend prep.	2–3 hrs

COMMUNITY & SUPPORT

- #build-in-public:** Share screenshots and live demos every week. Celebrate progress, not just completion.
- Mentor Office Hours:** Asynchronous text support on Tuesdays and Thursdays, with a response time of less than 24 hours.
- Monthly Hackathons:** 48-hour team-building group discussions – winners will receive badges and fast-track opportunities for internships.
- Guest Speakers:** Monthly live Q&A with active AI engineers, founders & product leaders.

YOUR LEGACY BEGINS HERE

Become an *AI-Powered Builder*

Graduate with genuine hands-on experience across the full stack, two certificates, and a production-grade AI product you can show any employer on day one.

WHAT YOU WALK AWAY WITH

OUTCOME	DETAILS
Dual Certification	Kayalascademy Course Completion Certificate + Guided Project Internship Certificate.
GitHub Portfolio	8+ real-world AI projects demonstrating full-stack and AI engineering skills.
Career Support	LinkedIn badge, verified skills endorsement, Alumni Network & job placement support.
Job-Ready	Apply as a junior developer, AI product builder, or freelance AI consultant on day one.

WHY KAYALAS ACADEMY?

OTHERS	KAYALAS ACADEMY
Tools taught in isolation	Tools integrated into real product workflows
Heavy theory, minimal shipping	Build-first — you ship from week one
Generic, outdated projects	Industry-relevant, portfolio-worthy capstones
No career support	Full acceleration: resume, LinkedIn, interviews, jobs

WHAT OUR STUDENTS SAY

<p>★★★★★</p> <p><i>"I went from knowing nothing about coding to shipping a full AI-powered SaaS product in 4 months at Kayalascademy. The live build sessions are what made the difference — watching it done in real time changed everything."</i></p> <p>A Arjun Mehta Freelancer → Junior AI Developer, Hyderabad</p>	<p>★★★★★</p> <p><i>"As a non-tech founder I always relied on developers. After Month 2 at Kayalascademy, I was building my own MVP. The Agentic AI curriculum is genuinely cutting-edge — I've used it to automate half my business."</i></p> <p>P Priya Sharma Founder & Entrepreneur, Bangalore</p>
---	--

STUDENT TESTIMONIALS (CONTINUED)

<p>★★★★★</p> <p><i>"I was a marketing professional with zero coding experience. The structured roadmap and mentor support at Kayalascademy gave me confidence. I landed a role as an AI Product Manager within 2 weeks of graduating."</i></p> <p>S Sneha Reddy Career Switch → AI PM at a Tech Startup</p>	<p>★★★★★</p> <p><i>"The monthly hackathons at Kayalascademy are intense in the best way. Our team built a RAG-powered legal document analyser in 48 hours. That project alone got me 3 interview callbacks. Best investment I've made."</i></p> <p>R Rahul Nair CS Graduate → Full-Stack AI Developer</p>
<p>★★★★★</p> <p><i>"I joined Kayalascademy with zero coding knowledge. By month 3, I had already built and deployed my own AI chatbot. The mentorship and structured learning made everything so clear."</i></p> <p>A Ananya Sharma Beginner → AI Product Builder</p>	<p>★★★★★</p> <p><i>"The program at Kayalascademy completely changed my career path. The portfolio and real-world projects helped me land freelance AI gigs within weeks of completion."</i></p> <p>K Kiran Patel Mechanical Engineer → Freelance AI Developer</p>

PROGRAM INVESTMENT

<p>COMPLETE 4-MONTH PROGRAM</p> <p>▲ Early Bird Offer: Valid for First 50 Members Only</p> <p>■ 2 Installments Payment Option Available</p> <p>₹30,000 ₹50,000</p> <p>Early Enrollment Discount Active • Flexible EMI Options Available</p> <ul style="list-style-type: none"> ✓ All Live Weekend Sessions (96+ Hours) ✓ 1-Month Guided Internship & MAANG Mentors Support ✓ Dual Certification & GitHub Portfolio Setup ✓ Career Acceleration (Resume, LinkedIn, Interviews)

Ready to start building?

Join the 2026 Edition. No prior AI or ML experience required. A laptop with 8GB+ RAM is all you need.
